

**A**  
There's something deep inside of me  
**G D Bm**  
That can't make the journey into words

**A**  
A sprinkling of frustration  
**G D Bm E**  
As I seek to verbalise my heart

**D E A**  
It's not loneliness or fear, it's a form of desperation

**D E A**  
I need more and more of you and the discipline to see you

**E G**  
So you'll find me on my knees and I'll be praying with all my heart

**A G**  
Deep is calling to deep

**D E**  
I need you again I failed on my own

**A G**  
I know you're the answer but I don't know the question

**D**  
That my heart is asking

**E A**  
But I know that my being is consumed with wanting you

I hear the words of scripture  
Being read and believe them in my mind  
But they sometimes make no difference  
They don't change what's in my heart or my life  
Give these non-effectual words your power to come and change me  
As I strive for holiness, but only you can help me do it  
So you'll find me..

**D D/C# Bm E D D/C#**  
And you've given me so much to live my life for

**Bm E D D/C#**  
You've come into my heart and made me whole

**Bm E D G**  
So I die unto myself and live for Jesus alone
